PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building and deploying production-grade full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in RESTful API development, JWT Authentication, Role-Based Access Control (RBAC), Socket.IO, and AI integrations using Gemini AI and Twilio WhatsApp API. Experienced in developing secure, scalable, and cloud-deployed applications on Vercel and Render. Passionate about solving real-world problems and seeking an opportunity to contribute as a MERN Stack Developer.

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- Frontend:** React.js, React Hooks, React Router v6, Context API, Custom Hooks, Tailwind CSS, Axios, Responsive Design
- Backend:** Node.js, Express.js, REST API Development, RESTful API Design, MVC Architecture, Middleware, CORS, Error Handling
- Database:** MongoDB, MongoDB Atlas, Mongoose ODM, MySQL, Database Schema Design
- Auth & Security:** JWT Authentication, bcrypt Password Hashing, RBAC, Protected Routes
- Real-Time & APIs:** Socket.IO, WebSocket, WebSockets, Twilio WhatsApp API, Gemini AI API, Multer, Postman
- Tools & DevOps:** Git, GitHub, Vercel, Render, CI/CD, npm, ESLint, Prettier, dotenv, MongoDB Atlas

PROJECTS

AI Service Management System Live Demo | GitHub

React.js, Node.js, Express.js, MongoDB, Gemini AI API, JWT, Twilio WhatsApp API, Tailwind CSS

- Designed and deployed a production-grade MERN Service Management Platform supporting AC, Refrigerator, Washing Machine, and RO service bookings with dedicated Customer, Technician, and Admin dashboards.
- Integrated a Gemini AI-powered support assistant to identify appliance issues, guide customers through service requests, and automate interactions to improve overall support efficiency.
- Engineered secure JWT Authentication, RBAC, and 10+ REST API endpoints covering booking management, technician assignment, service tracking, and real-time status update workflows.
- Implemented Twilio WhatsApp notifications, responsive Tailwind CSS interfaces, and cloud deployment via Vercel, Render, and MongoDB Atlas for a scalable, production-ready release.

FarmAura – Farmer Marketplace Platform Live Demo | Frontend | Backend

React.js, Node.js, Express.js, MongoDB, JWT, Socket.IO, Tailwind CSS

- Developed a full-stack MERN e-commerce marketplace with three role-based portals (User, Vendor, Admin), featuring a secure vendor approval workflow and admin dashboard for product moderation and order tracking.
- Engineered JWT Authentication, bcrypt password hashing, and RBAC; built 12+ REST API endpoints covering cart management, order processing, stock control, and automated email notifications.
- Implemented dynamic client-side routing with React Router v6 and global state management using Context API and React Hooks (useState, useEffect, useContext) for a seamless cross-portal user experience.
- Deployed frontend on Vercel and backend on Render via CI/CD pipeline; secured all environment secrets using dotenv configuration for a production-ready release.

Real-Time Chat Application Live Demo | Frontend | Backend

React.js, Node.js, Express.js, MongoDB, Socket.IO, WebSockets, JWT

- Delivered a production-deployed real-time messaging platform using Socket.IO (WebSockets), achieving sub-100ms message delivery supporting 50+ concurrent users with online/offline presence and last-seen tracking.
- Implemented JWT Authentication, bcrypt password hashing, and protected REST API routes; engineered a reusable custom React Hook (useSocket) for socket lifecycle management with Mongoose ODM schemas for user profiles, chat history, and session persistence.
- Deployed frontend and backend on Render with CI/CD automation; configured environment variables for secure, scalable, production-ready deployment.

EDUCATION

S.M.S College of Arts and Science	Tamil Nadu, India
<i>Master of Science in Computer Science — CGPA: 7.74/10</i>	2023 – 2025
S.M.S College of Arts and Science	Tamil Nadu, India
<i>Bachelor of Science in Computer Science — CGPA: 7.64/10</i>	2020 – 2023

CERTIFICATIONS

MERN Stack Development Certification — Anjana Infotech, Rajapalayam (2025)
Intensive training in React.js, Node.js, Express.js, MongoDB, MySQL, REST APIs, JWT Authentication, Postman API Testing, and Vercel/Render deployment.
