PROFESSIONAL SUMMARY

Results-driven **MERN Stack Developer** and M.Sc. Computer Science graduate (2025) with hands-on experience building scalable **full-stack web applications** using **React.js, Node.js, Express.js, and MongoDB**. Proficient in **RESTful API development, JWT authentication**, real-time communication with **Socket.IO**, and cloud deployment on **Vercel** and **Render**. Delivered 3 end-to-end production-grade projects demonstrating strong competency in **component-based architecture, database design**, and **secure backend development**. Eager to contribute to an agile development team as a **Software Developer** or **React Developer**.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design, Component-Based Architecture

Backend: Node.js, Express.js, PHP, RESTful API Development, Middleware, MVC Architecture

Databases: MongoDB, MongoDB Atlas, MySQL, Database Schema Design, Mongoose ODM

Auth & Security: JWT Authentication, bcrypt Password Hashing, Protected Routes, Role-Based Access Control

Real-Time: Socket.IO, WebSocket

Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Render, npm, Version Control

PROJECTS

Farmer-to-Customer Marketplace | *React.js, Node.js, Express.js, MySQL, REST API, Vercel, Render*

- Architected and deployed a full-stack **MERN-style marketplace** connecting farmers directly with customers, eliminating intermediaries and streamlining the supply chain.
- Designed a normalized **relational database schema** in **MySQL** covering farmers, customers, products, and orders with referential integrity.
- Developed **10+ RESTful API endpoints** for product listing, inventory management, and end-to-end order processing using **Express.js**.
- Integrated **React.js** frontend with **Node.js/Express.js** backend and executed full-stack deployment on **Render** and **Vercel**.

Real-Time Chat Application | *React.js, Node.js, Express.js, MongoDB, Socket.IO, JWT*

- Built a real-time messaging platform supporting instant bi-directional communication using **WebSocket technology (Socket.IO)**, achieving low-latency message delivery.
- Implemented secure user **authentication and authorization** using **JWT** tokens and **bcrypt** password hashing for login and registration flows.
- Designed **MongoDB schemas** with Mongoose ODM to efficiently persist user profiles and chat message history.
- Developed fully integrated **React.js** frontend with **Node.js/Express.js** backend for seamless real-time full-stack functionality.

E-Commerce Platform | *React.js, Node.js, Express.js, MongoDB, JWT, MongoDB Atlas, Vercel*

- Engineered a production-ready **MERN stack** e-commerce application with product listings, shopping cart, and complete order management workflows.
- Built **15+ RESTful API endpoints** covering user **authentication**, product **CRUD operations**, cart management, and order processing.
- Implemented **role-based access control (RBAC)** using **JWT** and **bcrypt** with protected routes for admin and customer authorization.
- Deployed cloud-ready application integrating **MongoDB Atlas** for scalable database hosting and **Vercel** for frontend CI/CD deployment.

EDUCATION

S.M.S College of Arts and Science

Master of Science in Computer Science | CGPA: 7.74

Tamil Nadu, India

2023 – 2025

S.M.S College of Arts and Science

Bachelor of Science in Computer Science | CGPA: 7.64

Tamil Nadu, India

2020 – 2023

CERTIFICATIONS

MERN Stack Development Certification | *Anjana Infotech, Rajapalayam*

2025 – 2026

- Completed intensive Full Stack Web Development training covering **React.js, Node.js, Express.js, MongoDB, My SQL, REST APIs**, and deployment workflows.
